Message from President Director

“At Gunung Raja Paksi Tbk (GGRP), we always nurture the culture of continues improvement through achievement and advancement in all fields of development.”

Thank you for choosing GGRP as your steel solution partner.

As a member of Gunung Steel Group (GSG), PT Gunung Raja Paksi (GRP) has grown into one of the leading steel producers in South East Asia. With more than 50 years of experience in the industry, the group has grown from producing a few types of steel products to a wide range of steel-based products, which is in line with our efforts to continuously support the development of the great Nation of Indonesia.

We have always emphasized foremost professional, performance through the in-depth experience and accompanied by a comprehensive approach in our efforts to provide the best services and the best possible value-added products. Those efforts, enable GRP to maintain its position as one of the leading companies in the steel industry throughout the years.

At Gunung Raja Paksi, we always nurture the culture of continuous improvement through achievement and advancement in all fields of development. We grow and prosper together with all our business partners by learning persistently.

Finally, as our group continues to grow and expand, we expect continued support and participation from our business partners to have a long-term relationship.

Best Regards,
President Director.

About Us

Production Capacity

2,200,000
tons of steel annually

PT Gunung Raja Paksi Tbk is a member of Gunung Steel Group, one of the largest private steel companies in Indonesia.

PT Gunung Raja Paksi Tbk (GRP) is a member of Gunung Steel Group, one of the largest private steel companies in Indonesia. Established in 1970 in Medan, North Sumatra, our company started the business by producing hot steel, gradually producing beams and steel sheets.

In 1991, PT Gunung Naga Mas transitioned to PT Gunung Raja Paksi (GRP). GRP is located in Cikarang Barat, West Java Province, Indonesia, covering more than 200 hectares.

With more than 50 years of experience in the steel industry, we produce 2,200,000 tons of high quality steel annually certified by local and international certification organizations.

Today, our company has become one of the largest private steel companies in Indonesia.

Gunung Raja Paksi, "Shaping Tomorrow". Together we develop a better future.

Our Vision

Establish PT Gunung Raja Paksi Tbk as the most competitive and become valuable benchmark for large private steel company in Indonesia.

Our Mission

To ensure stakeholders and customers satisfaction through innovation, efficiency, productivity, quality products and services as well as company social responsibility to enable company sustainability.

SHAPING TOMORROW

The Rise of the Next Generation

The new logo of PT Gunung Raja Paksi Tbk marks a new milestone in the journey of the company as it progresses under the leadership of the next generation.

The logo was designed to be relevant with the spirit of the new leadership and the current demand of the industry. It signifies the growth of the company together with the nation.

The red colour of the new logo represents courage while the diagonal line represents agility and speed of the next generation.

Milestone

1970

- PT. Gunung Gahapi Sakti was established. As a result of merging between PT. Gunung Gahapi and PT. Gunung Sakti.

1991

- PT Gunung Naga Mas transformed into PT Gunung Raja Paksi (GRP), producing steel sheets.

2012

- PT. Bukit Terang Paksi Galvanizing and ESC Division merged to become PT. Gunung Steel Construction.

2011

- GSG Introduced Normalizing, a new service way to provide the best services and quality to customers.

2010

- GRP Acquired Assets of PT Gunung Gahapi Bahara.

2014

- Ground Breaking of Blast Furnace Plant in Cikarang Barat, Bekasi, West Java.

2017

- Gunung Garuda and Gunung Raja Paksi became PMDN Companies.
- Gunung Steel Construction was changed its name to PT. Gunung Baja Konstruksi, and became PMDN Company.
- PT Gunung Raja Paksi started production of slab.

2019

- GRP became Indonesia Public Listed Company, (Thicker: GGRP).

1992

- SSC (Steel Service Center) was established in 1992.

1997

- PT. Bukit Terang Paksi Galvanizing was established in early 1997. Then the ESC (Engineering Service Center) division.

1998

- PT. Gunung Gahapi Bahara was established to respond to the high demand for quality steel in Indonesia.

2002

- CSC (Coil Service Center) was established in 2002.

2001

- BSC (Bar Service Center) and PSC (Plate Service Center) were established in 2001.

2000

- PT Gunung Raja Paksi Started producing a Hot Rolled Steel Plate in the last quarter of 2000.

2020

- GRP (PT Gunung Raja Paksi Tbk) made changes to a new logo that was more dynamic and professional in character.

2021

- PT Gunung Raja Paksi Tbk became the first steel company in Indonesia and one of the first in Asia to purchase quality carbon credits from climate impact X (CIX).

Global Market

As one of the largest steel producers in Indonesia with the widest product range makes a good reputation for GRP among global industrial companies. The ability of GRP has been proven by international market customers satisfaction for its quality products.

GRP Services

Steel Service Center (SSC)

Available Products:

- Angle (HR)
- Cell Form
- Channel (UNP)
- H-Beam (HR)
- Honey Comb
- King Cross
- Queen Cross
- T-Beam
- Welded Beam
- Wide Flange Beam (IWF).

Service Provided:

Angle Line: Cutting, Punching, Stamping
 Special Operations: Bending, Chamfering, Notch-ing.
 Beam Line: Bending, Cutting (90° & 45°), Drilling
 Copying (Honey Comb) Painting Shot Blasting.
 Welded Beam Line: Build Up Beam, Tacking, Welding, Straightening.

Coil Service Center (CSC)

Available Products:

custom fabrication
 Hot Rolled Coil

Service Provided:

Leveling - Cut to Length
 Maximum Coil Mass 25 Ton
 Minimum Entry Width 1200 mm
 Maximum Entry Width 1524 mm
 Maximum Thickness 12 mm
 Maximum Cut Length 12 M

Plate Service Center (PSC)

Available Products:

- Hot Rolled Steel Plate
- C-Channel
- Equal Angle
- Bridge Deck
- Caping/Flashing/Trim
- Floor Deck

Service Provided:

Cut to Shape
 Plate Line : Bending, Drilling, Punching, Shearing, Stamping.

Forming Service Center (FSC)

Available Products:

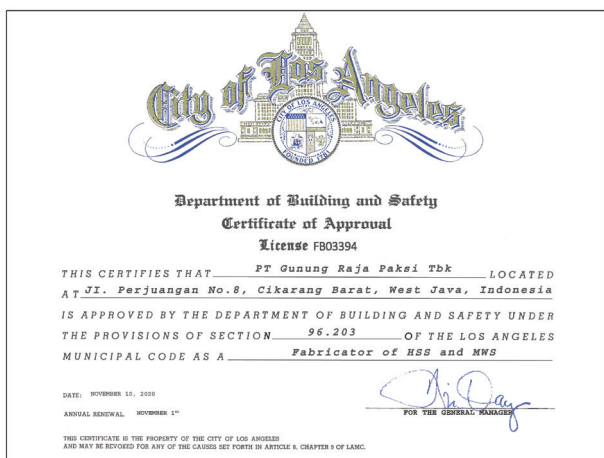

- Lipped Channel
- ERW Pipes
- Rectangular Hollow Section
- Expanded Mesh
- Square Hollow Section

Service Provided:

- Cut to Shape
- Beveling
- Cut to Length
- Drilling
- Forming
- Punching & Stamping

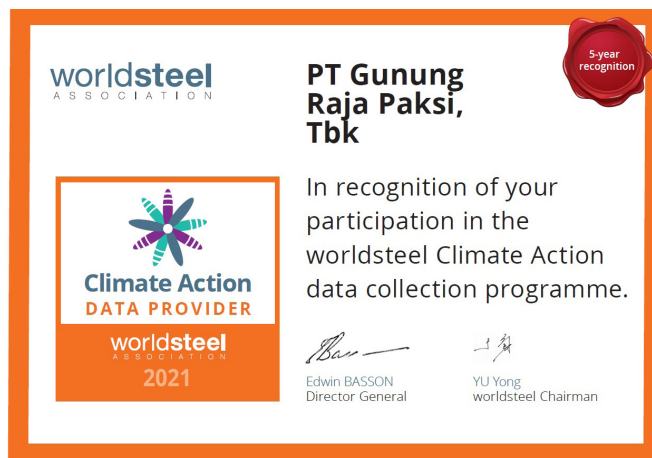

Proof of Gunung Raja Paksi (GRP) as one of the leading companies in Asia

GRP is very concerned about the quality of products and management system. This is evident from the many international certifications obtained such as ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, ABS (American Bureau of Shipping), ACSR (Australasian Certification Reinforcing and Structural Steel), AISC (American Institute of Steel Construction), BSI (British Standards Institution), BV (Bureau Veritas), IIW (International Institute of Welding), KAN (Komite Akreditasi Nasional), LR (Lloyd's Register), JIS Marking, SIRIM (Standard and Industrial Research Institute of Malaysia) & SNI (Standar Nasional Indonesia)

Corporate Social Responsibility (CSR)

GRP is highly committed to improving the people’s welfare by implementing various programs that are expected to improve the quality of life for the community, especially the people of Indonesia.

Our CSR is not just limited to the development and improvement of the human society in general, but also exercising good corporate governance which includes customer awareness, human resource development, green environment development and support in community development and social environment, achieving the ISO 26000 for the company.

GSG has 5 main pillars of corporate social responsibility (CSR):

- **Building Human Capital,** Creating internally reliable human resources, while externally building community empowerment.
- **Strengthening Surrounding Local Economies,** Companies exist not just to benefit themselves, but also to benefit the surrounding economy.
- **Maintaining Social Harmony,** Efforts to maintain harmony with the surrounding community so as not to cause conflict.
- **Encouraging Good Governance,** Companies must refer to Good Corporate Governance (GCG) for the business well-being.
- **Protecting the Environment,** Companies must strive to maintain environmental sustainability.

Sustainable Growth

As one of the largest steel producers in Indonesia with more than 273 million population, GRP continues to show sustainable growth in all areas. Until now, there are more than 5000 qualified employees, who have undergone rigorous training, helping GSG achieve corporate success in Indonesia.

As consumer demand grows in the 4th most populated country in the world, GRP is relentlessly developing new innovations and quality products that are in demand in the domestic and foreign market. As a matter of fact, all GRP facilities are equipped with the latest technology to produce steel products in large quantities and shorter time to meet increasing market demand.

By now, GRP has achieved production capacity of around 2.2 million tons per year. In the coming years, GRP will continue to grow and ensure the fulfillment of the need for high quality steel products.

The development of good facilities will be key to achieving GRP success. GRP has plans to build new factories, reliable transportation modes, and office apartments around the factory area as part of our efforts to improve the quality and well-being of our companies and employees, creating economies of scale and contributing to the development of Indonesia.

Sustainable Growth
